

TEODOR STANEV

Motion Designer

As a versatile Motion Designer with a passion for bringing visuals to life, I specialise in crafting dynamic animations, expressive typography animation and engaging character-driven motion pieces. With a strong foundation in visual storytelling and a keen eye for rhythm and design, my work blends creativity with precision to deliver compelling animated content.

EXPERIENCE

Motion Design & Video Editing

OMNICOM PRODUCTION

2022-present

While working at **Omnicom Production** I have been handling projects for a variety of high-profile clients such as **Playstation, Amazon, Lloyds Banking Group, Mars** and **Esso**. These include:

- Collaborating with creative teams to produce motion graphics and animations for various projects, including TV adverts, social media campaigns, explainer videos and digital ads
- Creating high-quality animations and visual effects, ensuring the final product aligns with client vision and brand identity
- Developing pitch-winning motion content for new business presentations

NEWNHAM & JORDAN

2016-2022

During my time in the company I have single-handedly re-branded its identity through their social media presence by:

- Animating & editing legal process videos
- Animating testimonial videos
- Animating and editing legal tips & news videos
- Animating & editing legal process videos

By modernising the company's image using the above, as well as updating their printed marketing materials, trust in the brand was significantly improved. That, in turn, resulted in higher number of clients willing to use **Newnham & Jordan's** legal services.

FREELANCING

2011-present

In my time as a freelancer I have worked on a variety of different projects, including:

- Designing and animating adverts for **Mercator Media, Winscribe, Newnham & Jordan Solicitors**
- Colour & compositing for the short film '**Sleeping With The Fishes**' which won a **BAFTA** in 2014 for **Best British Short Animation**
- Video editing & motion graphics for some of **Binumi Pro's** clients, including **IFF, PRCA** and **KPMG**
